MONEY, BONDS AND STOCKS.

Business at New York Grows Smaller and Smaller, but Prices Are Firm. NEW YORK, June 29.-Money on call was easy at 11 to 3 per cent., the last loan being made at 2, closing at 2024.

Prime mercantile paper, 4 261 per cent. Sterling exchange was dull and unsettled, with actual business at \$4.86} for sixty days,

and \$4.884 for demand. The total sales of stocks to-day were 79,553 shares, including the following: Erie, 2,500; Lake Shore, 5,435; Northwestern, 2,875; North-

ern Pacific, preferred, 6,870; Oregon Transcontinental, 3,064; Reading, 11,900; St. Paul, 12,600; Union Pacific, 8,710. The volume of business at the Stock Exchange

containes to grow smaller day by day, but a feat-ure of the dealings is that the market remains firm to strong. The traders, who have the making of quotations almost entirely in their own hands, have come to a point where they are afraid to put out any further lines of "shorts," and the limited offering of stocks renders the covering of outstanding "short" contracts a difficult matter; and it is stated that at ruling figures it is utterly impossible to buy even a small block of stock. To day's market was very tame at the opening, though prices, as com-pared with last night's figures, were generally higher. The restraining order obtained by some of the roads against the Iowa commissioners gave a strong tone to the grangers, Northwest-ern showing a gain of } per cent. Further gains of fractional amounts were established in the early trading, the grangers, Reading and Union Pacific leading. The latter stock was helped by the announcement that an effort would be made on Monday to get the funding bill before the House, and that President Adams had gone to Washington to use his influence to that end. The Vanderbilts afterward became prominent, though there were numerous telegrams from the West in regard the further cutting of rates on dressed beef, the hopeful utterances of Commissioner Blanchard seemed to have a neutralizing effect upon them. The constantly improving earnings of the Northern Pacific stimulated buying in those stocks to-day, and Oregon Improvement scored a gain of over 2 per cent. New England came more into prominence later in the day, and the upward movement was continued without a setback during the entire day, though the extremly limited business done prevented any marked movement in the general list. The close was very firm, however, though intesely dull, at about the best prices of the day. The number of shares sold was only 79,-553. The active list is almost invariably higher this evening, though the gains are for fractional amounts only, except in Michigan Central, which rose 14, and Oregon Improvement and Manitoba,

The railroad bond market was again very dull. The tone of the market, however, was still strong, though there was little or no feature to the dealings. The final changes are almost in-variably in the direction of higher figures. Government bonds were dull to steady.

selling early caused prices to sag a little and the attitude of the big traders not only pre-vented an advance but also established a net depression of about ic. Because of the slowness with which exporters' orders were filled late yesterday there was quite a bullish felling at New York early, and prices there advanced nearly le, but Chicago orders were to sell and the early advance was lost before noon. Export clearances of wheat at New York were 97,400 bu. Cables were firm and prices for American wheat were tending upward on the other side. Certain houses here were credited with selling heavily, with a view of breaking the market. But for the odds against them, the crowd would have bulled wheat on the general situation. July started at 80 c, sold down to 79 c, and slowly returned to 80c. August opened at 79 c, sold at 80ic, down to 79ic and up to 80ic before the close. The prices at 1 P. M. were: June, 79ic; July, 70ic. Final prices for the day were 79ic 79ic for both July and August. Corn was weak early, because the receipts exceeded the estimate, and reached 236 cars, with 156 cars of No. 2 grade. There was much better business in the pit than would be indicated by the narrow range of prices. There was no raiding. The lowest point of the day was but ic under the close last night. This was touched near the opening. Later in the session there was good general buying, and prices at 1 P. M. were but lower than last night. The estimate for Saturday was 175 cars. The out

inspection was a source of strength, aggregating 562,000 bushels. The shippers were also in search of vessel-room to-day. and paid 1 c for what room they secured. There was a new decline on the afternoon board, however, and July closed at 471 @47 to, against 480 last night. Oats were dull and easy, the near futures particularly so. July declined ic, closing at lowest figures of the day. Provisions were moderately active early. The receipts of hogs were larger and prices a shade lower.
Offerings of cured product were quite free and
the demand light and chiefly from "shorts."
A weak feeling developed, prices averaged lower
and I at o'clock lard and short rib sides were 7th below yesterday's last sales, while pork was off 2jc. It was estimated that stocks on July 1 will show a large gain over those of June 1, and on the afternoon board there was a further decline of .02½ in lard, short ribs and pork as well, the final figures on the August option being \$13.62½ for pork, 8.17½ c lard, and 7.50 short ribs. NEW YORK, June 29.—The brokers in the coffee market were filled with consternation this morning by the springing of the sharpest corner ever worked in the Coffee Exchange. The "bulls" had effected a complete corner in spot coffee, and when the operators having June coffee to deliver attempted to buy it they found that it was all held by S. Gruner & Co. and Crossman Bros., who represent the "bull" clique. In the first hour of business the price advanced 51c a pound, opening with a sale at 121c, and advancing to 13c on the first call on sales of 1,250 bags. After the call it rose le at a time till noon, when 18c was bid and no coffee found for sale. The corner was continued in the afternoon, but a settling price was fixed on by brokers for the "buil" houses making transactions at 21c, and 21.05c per pound, an advance of 8.05 points since the opening. The brokers claim that the short interest is very small.

INDIANAPOLIS MARKETS. Trade Fairly Active-Sugars Higher-Coffees Downward in Tendency.

INDIANAPOLIS, June 29. In most departments a fair volume of trade is in progress for the last few days of June, and a feeling prevails that July will be a better business month than has been the month now nearing its close. Sugar to-day advanced 1 of a cent, and higher prices here are probable. The coffee market shows signs of weakness all along the line. The New York Commercial Bulletin of the 28th, says: "The uncertain tone does not disappear from market for Brazil, and operators dealing in actual goods move in a slow, hesitat-ing manner, as a rule. Buyers seem to have an idea that they are to obtain better terms after the speculator has concluded the performance of twisting certain operators who are not in possession of supplies to deliver on immediately maturing contracts, and stand off accordingly, but holders take advantage of apparent favorable symptoms and ask rates accordingly. A large supply of desirable substitutes is not without some efwill not meet the accomulating country wants when the latter commence to develop. Contracts had no really new features. June appeared to be fully under control, and whenever anyone called for that mouth the screws were applied and rates put up with 15 points at one time added, and the close standing somewhat above last evening. The later months underwent some fluctuation, through a course of local milking in which no one had any special advantage, though at the close the ruling quotations named were a fraction above last evening. Rio sent nothing

special except an indication of plenty of coffee, and Havre was, on the whole, weak." Other staple groceries rule steady. Dry goods men report trade very satisfactory for the latter part of June, and prices steady and strong on most lines of goods. The provision men report trade quiet. Some-The provision men report trade quiet. Something is doing in a jobbing way, but stocks are not being reduced as rapidly as at the corresponding period last year. But packers are not uneasy, believing that a better market is assured in the near future. The produce markets are active. Berries in better supply, and prices ruling steady, but not especially firm. Some good apples begin to come on the market, and readily bring our best quotation. Poultry ages and bring our best quotation. Poultry, eggs and really choice butter are not coming in as freely as usual at this season of the year, consequently prices on the three articles named rule strong. New potatoes and cabbage are in good supply, and prices, although not quotably lower, are weaker than in the early part of the week. Other markets present no new features.

The attendance on 'Change was good and the interest shown was greater than for some time. Receipts are very light. Wheat-No. 2 red.....

NO. 2779-A CONFLAGRATION. A European tour I took;
First sight of ship, or ocean look.
Ship landed first at Liverpool;
So wild I gazed was thought a fool.
But greater sights were yet for me,
As I was then across the sea,
Lost in London, prodigious town,
Mistook for P. T. Barnum's clown.
With London police disgusted With London police disgusted In short order I intrusted Myself to the English channel. Got pulled out, though in it I fell. When out, concluded not to die, When out, concluded not to die,
But into other matters pry.
I struck at last the hither shore,
Land of Robespierre, years before.
In its chief city, there I sought
The scenes of bloody battles fought.
Home of the Napoleons bold;
Later, republican stronghold..
While passing through its boulevards,
Homes of statesmen, deputies, bards,
Saw massive structures on this walk,
The pride of Frenchmen's proudest talk.
Walked along these thoroughfares, Walked along these thoroughfares,
Historic parks and gorgeous squares.
I came at last when swards were green
Aud gazed upon the river seine.
Out to my right the river dock
Lay 'mid the everlasting rock; There were magnificent steamers, Small frigates, with humble streamers; The barge, the scuil, the little skiff, Sound boats with painted anchors stiff. Out to my left not far below. There stretched a bridge built years ago. A heavy train from depot near Passed me, and reached the nearest pier. The old bridge trembled by the weight, Seemed destined to disastrous fate; Train pa sed the first; "Can far piers hold?"
Said I; this bridge, though decades old,
Tremblingly bore its mighty load
Across, the train in safety strode. Alas! from fire-pan cars caught fire. The flames from cars to bridge rose higher.
